

Hi Players and Families,

Director of Coaching Update – New independent opportunity!

Under the current restrictions, one on one personal training is still permitted providing safe distancing is adhered to.

I have therefore been in contact with Neale Smith from Live and Breathe Soccer who has been working on some new 1 on 1 skill based sessions. Over the years Neale has been involved with Brisbane Roar and has spent many years at the forefront of QCSA as the Director Of Coaching, coaching along with our QLD National Player development squads.

The sessions are footwork skills only so this mitigates the risk of close contact to abide by current social distancing regulations. The sessions are primarily targeted at 10 years old and above and run as a 30 to 45 minute individual session from a designated central venue. You can book these sessions online directly via www.liveandbreathesoccer.com.au which is directly managed by Neale himself.

If you're interested in One on One coaching, please contact Neale directly as per the below details or on his website. He would love to be able to provide some of his expertise to players during the school holidays and beyond while we are unable to be training together.

Should there be any further tightening of the distancing restrictions or other regulations, Neale will provide an update with you directly to discuss the implications moving forward.
